

The Benefits of Care Inspectorate Wales (CIW) Registration

Care Inspectorate Wales (CIW) registers, inspects and takes action to improve the quality and safety of childcare. If childcare provision runs for more than 2 hours per day or six days or more a calendar year for children up to the age of 12 years, it must, by law, be registered with CIW.

Why it is important for you to be registered with CIW

Reassurance of quality for parents

There are many different clubs and activities available for children and parents to choose from. You can give them peace of mind, that you are offering quality childcare by meeting **National Minimum Standards for Regulated Childcare**. Display your CIW registration certificates. Parents can also access your inspection reports to make informed childcare choices for their children.

Encourages better outcomes for children

Quality CIW registered clubs provide valuable play and learning opportunities for children (3-14 years), helping them develop independence and new skills. Attending a quality childcare setting has a significant positive influence on a child's development.

Gives flexibility

You can better meet the needs of working/training parents/carers as you can open later and extend into before school, wrap around and holiday care.

Inspires confidence

Families, communities, schools, and others can be confident that you are providing quality, stimulating childcare. Registration enhances your reputation.

Sustainability

You can help parents access support with fees (e.g. Tax-Free Childcare) which will boost attendance and income. There may also be opportunities for you to access funding to extend or sustain childcare provision through Local Authorities and enjoy free promotion through their Family Information Services/ Dewis Cymru, which shares information on registered childcare with interested parents.

Trained and qualified staff

Parents value quality staff and your staff will: hold relevant qualifications and other training such as first aid, food hygiene and safeguarding; will have received thorough employment checks (including Disclosure and Barring Service, DBS checks) and; will be adhering to strict staff: child ratios. This gives families peace of mind.

Economical childcare

To make your fees more affordable to eligible parents, you are able register for:

- Tax-Free Childcare (enabling eligible working parents to access a reduction in fees of 20%)
- The Childcare Offer (enabling working parents/carers of 3-4 year olds to access 30 hours per week of funded early years education and childcare)
- Childcare Vouchers (no longer open to new applications) and
- the childcare element of Tax Credits/Universal Credits.

Recognises the needs of families

You can assure parents of quality childcare for their children. Children attending quality clubs are encouraged to contribute their ideas and know that their views will be listened to by staff and can explore, be challenged and have fun through play.

Clybiau Plant Cymru Kids' Clubs exists to help communities in Wales by promoting, developing and supporting quality, affordable, accessible out of school childcare clubs for children aged 3-14years.
