

STRUCTURE & ROUTINE

When things are uncertain, this leads to anxiety. Young people with Speech, Language & Communication in particular require a more concrete and predictable world to feel secure. You can decrease the uncertainty and increase the feeling of security by creating structure and routine for them.

BUILD STRUCTURE INTO DAILY ROUTINE

You want your daily routine to be as structured and predictable as possible. This reduces anxiety. Regular routines that are already in place such as bed times should be continued.

USE A VISUAL SCHEDULE

Try to use visual schedules so they can see what's coming up next. These plot a route through the day for them, creating predictability.

KEEP ROUTINE HABITS THE SAME

Keep your familiar routines consistent between days. For example, going for a walk at the same time each day, or following the same route on the walk.

MANAGE TRANSITIONS

Switching from one activity to the next can be challenging. Make it easier by giving reminders that things are coming to an end and others are beginning. You can use a Now/Next board, or a timer to help prepare for the change.
