5 HALLOWEEN Play ideas

1. Halloween Charades

Play this classic party game in howl-worthy Halloween style. One person picks a topic from a bowl of Halloween charade words and then acts it out while keeping their lips sealed. The role of the remaining players is to attempt to guess what's being acted out. The freaky charade cards could include words like witch, spiderweb, werewolf or Frankenstein.

2. Toilet Roll Mummy

What to do:

1. Glue googly eyes or draw eyes near the top of the tube.
2. Wrap the toilet paper tubes with strips of toilet paper, gluing occasionally along the length of the strip to secure it in place.

What you will need:
Toilet roll
Glue
Toilet roll tube
Googly eyes/black pen

3. Giant spider web

Place the chairs out into a circle shape. Then with one end of string, tie a knot around the leg of one chair. Now unravel the string across to the next chair, and so on, until the web is wrapped at least 3-4 times around each chair. Once you've got your web as big as you want it, cut and tie off the loose end to a chair. Now the kids are ready to crawl under, over, around, and through their spider web.

What you will need:
Chairs
String

4. Spooky den building

Grab some bed sheets, blankets and cushions and make den. Then turn off the lights and turn on your torch. Can you make shadow puppets tell spooky stories or jokes or read some Halloween themed books?

5. Pumpkin sensory bag

What to do:

1. Fill your Ziplock bag up with pumpkin guts and then seal the bag. Tape up the seal to make sure that your baby can't get into the bag.
2. Sellotape the sensory bags down on the highchair or floor so that they can use their fingers to squash and squeeze the contents of the sensory bag.

What you will need:
Pumpkin insides
Zip lock bag
Sellotape
black sharpie
(optional)
