

Make your own Bird Feeder

Things you will need:

Toilet roll tube

Bird seeds

String

Peanut butter / coconut oil

How to:

Spread the peanut butter or coconut oil onto the toilet roll tube.

Put your bird seed onto a plate and roll the tube covering it fully with the seeds.

Put your string through the tube and hang up somewhere outside ready for the birds to come and feast on.

Why not keep a record of the different birds you spot visiting your feeder?
